Improvement urgent

TRAITS

- Nervous - fidgeting, nervous tension, tics, tremors, apprehensiveness, etc.....
- Depressive - being too sad, relative to the circumstances, too much of the time.....
- Active - energetic, undertaking many tasks, lively, etc.....
- Cordial - expressively warm-hearted
- Sympathetic - feeling with others and acting accordingly, responsive to the joys and sorrows of others....
- Subjective - poor ability to act logically, because so swayed by prejudice and one's own qualities.....
- Aggressive - attempts to push ahead of others, enjoying dominion.....
- Critical - criticizing to get the satisfaction of the superior feeling produced by it.....
- Self-mastery - control of impulsiveness in the interest of planning.....

OPPOSITES

- Composed
- Gay-hearted
- Quiet
- Cold
- "Hard-boiled"
- Objective
- Submissive
- Appreciative
- Impulsive

No very important decision should be made on the results of these scores alone. In such cases, confirmation by other means is desirable.

The percentiles are not to be considered as accurate to the nearest unit. The profile should be read as if the percentiles were rounded off roughly by tens in the middle of the scale and progressively less toward the extremes.
